Questions:

1. Gen-mat-material tab

Why are some clients listed on one line for each material, but other clients have multiple materials in one box.

Example:

Dixie Carriers/Hercules	Propylene (Propene)	0 samples
	Py Gas (Pyrolysis Gasoline)	
	Per MSDS mixture of benzene,	54 samples
	cyclohexane,	46 samples
	toluene,	49 samples
	ethylbenzene,	49 samples
	mixed xylenes,	55 samples
	styrene,	2 samples
	n-propyl benzene,	13 samples
	xylenes-total	57 samples
	naphthalene,	62 samples
	biphenol	31 samples
Dixie Carriers/Hercules	plus 17 other chemicals w/o sampling results.	

2. gen-mat-client tab

What counts as a Material Removable Event? Would one job equal one event, or could a job have multiple events?

3. Bookmarks tab

What does this entire tab reference? What is PDF document referring to?

4. Lookups tab

What does "PDF" reference to? What does "Page in PDF" reference (those numbers do not match numbers in the "pages" column)?

Subject: Gulfco Revised Workbook with SDMS References

Barbara:

Attached is a revised workbook for Gulfco with the SDMS references added to the Materials tab. GRB also added a Comments column on the right to list which files are redacted. This submittal has not been thoroughly QC'ed because of reduced personnel today and so is considered a draft. It will be QC'ed on Monday, so please let me know if there are other changes you would like done.

Have a very Happy (and safe!) New Years celebration.

Louise
